Experience

BASF - **Digital Design Working Student**
Jul 2023- Present, **Cologne, Germany**

- I currently craft compelling and user-friendly digital content and interfaces, blending artistic flair with technical expertise. My goal is to effectively communicate messages and address design challenges through seamless and engaging experiences.

Lean Scale - **Digital Product Designer**
Sep 2021- Jan 2023, **Dubai, UAE | Remote**

- I have a proven track record of designing and launching two products from inception to execution, collaborating closely with product managers throughout the process. As the sole designer for the Seller Portal Project and Apollo Project, I conducted comprehensive user research, developed personas, crafted journey maps, and built prototypes and design systems.

Dogma Alares - **Design Associate, UX/UI Design**
Aug 2020 - Sep 2021, **Istanbul**

- Supported the conceptual development and delivery of visual design deliverables across multiple platform and touchpoints.
- Created storyboards, user flows and experience ideas in close collaboration with other designer and product managers.
- Designed new experiences and interfaces that evolve and define visual systems and generate new visual language.

ENGIE - **UX/UI Design Intern**
Jun 2019 - Aug 2019 - **London, United Kingdom**

- Conducted user research and used card sorting to improve information architecture of Engie.com

Vakko - **Visual Design Intern**
Jun 2018 - Jul 2018 - **Istanbul**

- Helped all the visual design operations in Vakkorama

Education

University of Siegen - Siegen/Germany
Feb 2023 - Present
M.Sc. in Human Computer Interaction

Ozyegin University - Istanbul/Turkey
Sep 2015 - Jun 2020
Bachelor of Science in Communication Design
- **Minor in Industrial Design**
- **Honor:** Full Merit Based Schloarship
